## Green Cleaning Chemicals

Today, with growing awareness and sensitization on environmental management, stakeholders across the sectors are in the forefront in conceiving and designing products and technologies which are ecologically superior and economically viable. A step towards this direction is designing of Green Cleaning Chemicals.

Green Cleaning Chemicals are those which enhance indoor air quality and reduce impact on human health and environment during the entire life cycle including

manufacturing, use and disposal phases. Advocating and promoting Green Cleaning Chemicals is CII GreenPro certification.

GreenPro - Green Product Certification enables manufacturers to adopt green measures across the product life cycle, and enhance the product performance. IGBC Green Building Rating Systems encourage use of GreenPro certified cleaning chemicals in all types of buildings.

### Some of the key features :

- Very low Volatile Organic Compounds (VOC's)
- Free from hazardous substances
- Utilises biodegradable and natural ingredients
- Use of resource efficient and cleaner production processes

### Benefits:

- Enhanced indoor air quality
- Safer to human health
- Reduction in resource consumption such as energy, water etc
- Lower emissions and hence minimal environmental impact
- Reduced risks of handling and storage

## The following companies have received GreenPro certification for their cleaning chemicals

### Haylide Chemicals (P) Ltd.

- APC-F Green
- Sterix A Super Green
- WC Green
- Laundrokleen Green
- LaundroMulse E Green
- Fresh Hands LQ Green

Complete Solutions  
**Haylide**  
 Chemicals  
 Green Cleaning for all

Ms Archana Bhatnagar, Managing Directory and Mr. Nitin Bhatnagar, Director, Haylide Chemicals Receiving GreenPro certification during Green Building Congress 2017

### Richie Raffle Biotech (P) Ltd.

Mr. Chandrashekhar Reddy, Director, Richie Raffle Receiving GreenPro certification during Green Building Congress

- Biorico - Biological Effluent Treatment
- Biorico - Biological Wastewater Treatment
- Biorico - Biological Washroom Cleaner
- Biorico - Biological Poultry Treatment
- Biorico - Biological Kitchen Treatment
